Programming Basics: Python (Basics), JavaScript, Java, HTML, CSS

Professional Strengths: Stakeholder Management, Analytical Problem-Solving, Documentation, Audit Readiness, Process Improvement, Continual Service Improvement

PROFESSIONAL EXPERIENCE

Service Management Associate, IT Service Management | Accenture | Erode, Tamil Nadu | Oct 2024 to Present

- Manage the full incident lifecycle in ServiceNow (logging, triage, prioritisation by severity and business impact, resolution, escalation and closure) while protecting SLA targets in a high-volume queue.
- Lead problem records from identification to closure: perform root cause analysis, document known errors and workarounds, and work with technical teams to eliminate recurring incidents.
- Support the change management lifecycle: review and track change requests, assess risk and impact, coordinate approvals and implementation windows, and keep records accurate for compliance.
- Maintain CMDB records in ServiceNow: keep configuration items and their relationships accurate, and link CIs to incidents, problems and changes to support impact analysis and faster root cause identification.
- Improve CMDB data quality by reviewing CI records for completeness, ownership and correct classification, and flagging inconsistencies to the responsible teams.
- Administer the ServiceNow instance: manage users, groups and roles, maintain forms, lists and workflows, and configure reports and dashboards to improve usability and data quality.
- Design interactive Power BI dashboards tracking ticket volume, SLA compliance, aging and trends, giving leadership real-time visibility into service performance.
- Deliver end-to-end report automation with Power Automate for internal teams and external stakeholders, eliminating repetitive manual reporting and improving turnaround time and accuracy.
- Identify recurring issue patterns, close process gaps with cross-functional teams, and maintain knowledge articles and documentation that keep delivery consistent, compliant and audit-ready.
- Communicate status updates, gather requirements and manage expectations across technical and business teams, including escalations and major incident communication.

CERTIFICATIONS

- ServiceNow Certified System Administrator (CSA), ServiceNow
- Microsoft Certified: Power BI Data Analyst Associate (PL-300), Microsoft
- Claude Certified Associate: Foundations, Anthropic

KEY PROJECTS

Automated Reporting with Power Automate and Power BI: Built automated reporting pipelines and dashboards for internal and external audiences, removing manual effort and ensuring consistent, on-time delivery of SLA and incident reports.

Service Performance Dashboards in Power BI: Created interactive dashboards visualising ticket volumes, SLA performance and incident trends to support data-driven decisions.

EDUCATION

Bachelor of Science, Microbiology | KS Rangasamy College of Arts and Science, Tamil Nadu | 2024
